

February Results (2014) – Freeway Golf

Sunday, 9th February 2014 was reported to have been the most serious fire ban day in 5 years in our state of Victoria. The night temperature did not fall below 30C and the day's temperature shot to 40.4C, but we still managed to attract 18 passionate Serbs and 1 Greek golfer who could not persist with the adrenalin rush that one gets in smacking a little white ball.

This was our first game for the 2014 season, and it was played at the Freeway Golf Course in Bulleen. We had an unusual high number, thanks to Jovan Markovic who brought along 7 new members. This unusual heat wave had affected our scores, with many players complaining of the extreme temperature and the lack of cool drinking beverages or water provided on the course by the course management.

It was 1.30PM and we had just completed play on the 11th hole, when all of a sudden we were fanned by winds of around 70 km/h, branches began to fall around us and a dust storm was created from uncompleted course works. The temperature quickly dropped from 40 to 26, making the remainder of play refreshing.... Milan Vekovich
